# GROUP PRESENTATION

**EPC GROUP IS A SERVICES CONTRACTOR, A SPECIALIST IN ACCESS SOLUTIONS AND CORROSION PROTECTION.**

**We operate in industry (mining, oil and gas), civil engineering and new build construction.**

## **EPC GROUP OFFERS A LARGE RANGE OF SERVICES:**

- Industrial maintenance.
- Project and shutdown management.
- Building and engineering structure maintenance.
- Construction.

## **EXPERIENCE:**

- **SCAFFOLDING:** More than 20 years on industrial sites (construction, maintenance, projects and shutdowns).
- **COATING:** 33 years in anticorrosion application and building painting.
- **ROPE ACCES:** 10 years on industrial sites (maintenance, projects and shutdowns).

# OUR VALUES

## KNOW-HOW

### Training and local LABOUR involvement

EPC Group development is based on local recruitment and training, and a strong involvement in his environment.

All our employees are trained to the EPC Group and international standards.

## CARE

### QHSE and CSR commitment: EPC Group priority

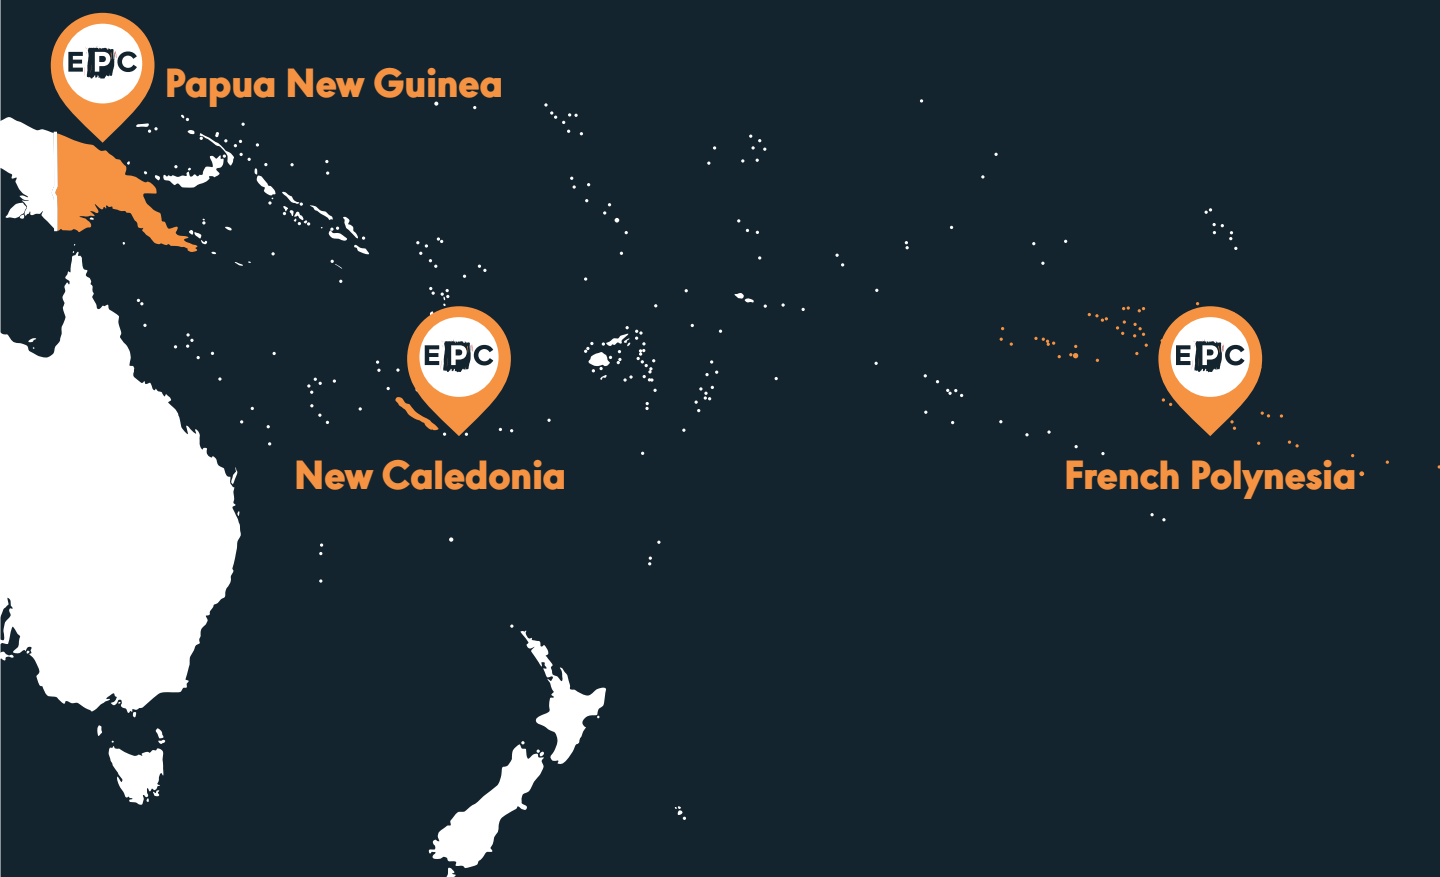

With our strong OHS and CSR policies, we offer high-level services based on our Health and Safety program.

OHS have always been the foundations of EPC GROUP development. The EPC VIE initiative, based on the continuous improvement of our activities, aims to transform our practices to achieve the highest level of operational excellence.

The EPC VIE approach reinforces our commitment to safety, integrating autonomous and robust managerial practices in all out activities.

Since the adoption of EPC VIE, our safety results have improves significantly, demonstrating our commitment to sustainability and well-being for all.

## OUR SUBSIDIARIES IN THE PACIFIC

# SCAFFOLDING

**OUR SCAFFOLDING EXPERTISE OFFERS TO OUR CUSTOMERS  
SECURE ACCESS SOLUTIONS TO ACHIEVE THEIR REQUIREMENTS  
IN COLLECTIVE'S PROTECTION.**

**WE PROVIDE  
ALL TYPES OF  
SCAFFOLDING  
ACCESS:**

- Tubes and fitting
- Allround
- Suspended
- Confined space
- Mobile elevated
- Work platforms
- Building

**SCAFFOLDING  
MANAGEMENT  
2500+  
TONES  
on sites**

**TRAINING  
400+  
trained**

**EXPERIENCE  
15  
YEARS  
on industrial sites**

## OUR STRENGTH: THE ACCESS SOLUTIONS

- Full Engineering (Design, Drawing, calculation notes and erection instructions).
- Technical Training for manual labour, scaffolders, foremen, project managers to international standards.
- Safety training for high risk working areas (confined spaces, ATEX zones,...).
- Our team erect and dismantle any design in the most efficient and safe manner in major environments (Industry, Construction, shipyards,...).
- Access conformity certified by qualified inspection team.
- All our access solutions are erected in compliance with international standards.
- Containment solutions with heat-shrinkable tarpaulin to create a safe working atmosphere (climate controle, dust protection).

# ROPE ACCESS

**WORK AT HEIGHT AND  
DIFFICULT TO ACCESS AREAS.**

**We are specialized  
in providing Rope  
Access solutions  
where access is difficult  
due to the environment  
or in exposed areas  
and when this  
form of access  
solution offers more  
efficiencies (cost,  
planning,).**

## **INDUSTRY:**

we offer a large range of work tasks (Surface preparation and treatment, Insulation and PFP application, NDT inspection, Maintenance, repair, modification, replacement and decommissioning of a variety of assets/ structures).

## **BUILDING:**

we support our customer in all building work tasks (Inspection, Maintenance, Repair, Equipment installation, Securing, Facade restoration, ...)

**Safety is our  
commitment; we strictly  
operate safely and  
efficiently according  
to IRATA international  
standards.**

**EXPERIENCE**  
**10+**  
**YEARS**  
**on industrial  
sites**

**FRAMEWORK  
CONTRACTS**  
**50+**  
**rope access  
technicians**

# INDUSTRIAL PAINT

## EXPERTS IN THE HIGH-QUALITY CORROSION PROTECTION FIELD

### OUR EXPERTISE:

- All corrosion protection Fields.
- All surface preparation methods (dry & wet blasting, UHP, vacuum blasting, soft blasting, robotised solutions...).
- Grinding.
- Cleaning.
- Manual or airless application.
- Floor resin.
- All type of specific protective coating (waterproofing, linings & repairs, TSA).
- Fireproofing.

### QUALITY:

- We provide full design solutions according to client or international standards.
- Member of OHGPI (French Office for the Approval of Industrial Paint Guarantees), we guarantee a high-quality level whatever the environment.
- Team training: Certified ACQPA, FROSIO, NACE.
- Safety training for high risk work areas (confined spaces, ATEX zones,).
- Strong quality control system during all application phases.

### EXPERIENCE

**50+**  
YEARS

### TRAINING

**30+**  
operators  
trained

ACQPA / FROSIO / OHGPI / GEPI : Nos réalisations sont soumises à l'aval de ces organismes et leur confèrent ainsi une garantie de sérieux. ETNA/EPC sont membres du GEPI et de l'OHGPI, organismes français appliquant un code établi selon des critères techniques rigoureux dans l'application et la garantie des peintures.

# BUILT ENVIRONMENT PAINTING ACTIVITIES

**OUR SPECIALITY: BRING YOUR EXTERIORS BACK TO LIFE.**

**EXPERIENCE**

**30+**  
**YEARS**

- **EXPERTISE:** We rely on our recognized know-how in the domain of construction and industry.
- **PERSONALIZED APPROACH:** We mobilize our expertise and our network to provide you the keys to the success of your projects.
- **COMMITMENT:** We are committed to ensuring that our Teams and Partners respect the rules of the art.
- **SOCIAL RESPONSIBILITY:** CSR commitment creates sustainable value by integrating ethical, environmental and social practices into all our activities.

PAPUA NEW GUINEA

SCAFFOLDING | PAINTWORK | ROPE ACCESS | CONTAINMENT

**Jean-Pierre and Fabrice JEANDIN**  
Founding Managers

EPC Group is a family-owned company.

In **1989**, Jean-Pierre JEANDIN created the company EPC, which would become the leader in new building painting and renovation work.

At the same time, SOPRA has specialized since **1994** in renovation and finishing work to meet the growing demand for buildings maintenance and rehabilitation.

In **2004**, during the nickel plant construction in the north of the island, Fabrice JEANDIN (Jean Pierre son's), started the industrial branch of the group. Since the end of construction, with the technical knowledge acquired, EPC Industrial has become the major company for maintenance and shutdown management in the industrial sector, with up to 300+ local workers per site.

In **2010** EPC Group acquire ETNA, a leader in Corrosion protection and industrial painting since 1995. This acquisition allowed EPC Group to extend its range of services in the mining, oil and gas and industrial maintenance domains.

In **2021**, ASAP, the main contractor for Rope Access activities in the industry, joined EPC group.

In **2024**, having become a leader in its fields of expertise, EPC Groupe decided to expand the company's activities in the Pacific and establish subsidiaries in French Polynesia and Papua New Guinea.

The expansion objective is to highlight the groups model of local populations development and training with a strong involving in its environment.

**95%**  
local  
workers

**200+**  
permanent  
employees

**STRONG  
PARTNERSHIP  
WITH  
INTERNATIONAL  
COMPANIES**
